IS HOME OWNER DOING THEIR OWN PLUMBING WORK? Y / N (If answered yes then read & fill out the following section)

NOTICE REGARDING RESIDENTIAL PLUMBING WORK

This Notice is being distributed with Residential plumbing permit applications to remind homeowners or make aware of a key requirement of the Illinois State Plumbing Code. This Code requires all plumbing work, must be performed, by an Individual or Firm, licensed and registered to perform plumbing work, in the State of Illinois.

The only exception to this requirement is that homeowners may perform their own plumbing work for a single-family residence. They are to have the knowledge to perform the plumbing work and they will reside in that residence for at least one year after the completion of the plumbing work.

If the homeowner subcontracts the plumbing work, a Plumbing Contractor licensed and registered with the Illinois Department of Public Health shall install it.

The undersigned agrees to the above requirements:
